-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1745

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 12 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

It is unclear where support for the language set forth in the first three lines of claim 12 is found in the present specification and drawings and thus unclear exactly what applicant is intending to claim thereby. Clarification is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 9-11, 21, 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Dougherty-US RE 36,102. (Dougherty)

Reference is made to Figure 3 of Dougherty along with column 4, line 29 through column 6, line 12. As set forth in column 5, lines 27-67, the strap elements 42/52 are joined to each of the respective electrode tabs 22/23 and 29/30. This joining is produced by inverting the plate stack and immersing the same in an H-shaped cavity

filled with molten lead. In this way, each tab will include a "clip" of metal on front and rear faces as claimed by applicant and these "clips" will abut each other along with length of the respective electrode column.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Fukuda et al.-US 6,627, 347, cited by applicant sets forth electrode plates with a plurality of holes in an electrode tab; Clarke discloses a clip placed on multiple tabs in a battery of interest; a current collector of interest for a plurality of flat battery plates is taught by Walker, Jr. et al.; Tura et al. discloses a pin extending through holes in battery tabs.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 571-272-1287. The examiner can normally be reached on Monday-Thursday, 6:15-3:45, and every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
